

Gritty Effect, Katrin Eismann by Dave Cross on the Best of Photoshop 9 DVD

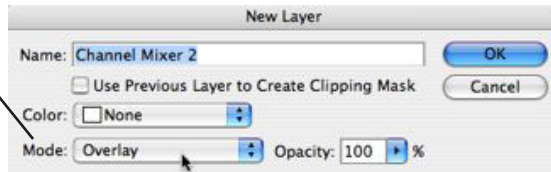

cool and simple

1) Open the photo

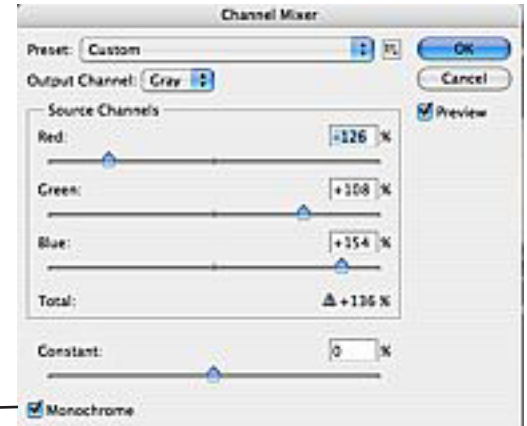

2) Option click the Adjustment Layers Icon in the Layers Palette choose Channel Mixer.

In the dialogue box that opened choose
Mode: Overlay

Click OK

3) Click the Monochrome Box
(why didn't it turn B&W?)

4) Side one value into the negative (-80 to -100, play and see what works) then slide the other values to the plus. explore, play, what looks good...

I lost the doorway so I explored the layers, and used the layer-mask to reveal the image below.

5) Click on the background layer in the Layers Palette

6) Click the Adjustment Layers Icon in the Layers Palette choose: Hue and Saturation.

-black conceals
-white reveals
