

Assignment: 3 images 4 ways

Objective: To explore Adobe Camera Raw and Photoshop using your own images. Using all or many of the techniques learned this semester, including but not limited to: ACR Adjustments, Sharpening, Layer Masks for selective edits. Use of Adjustment Layers, Sizing and more.

Choose 3 Images: Nature, Portrait, Pet, Landscape, Food, Documentary, anything. Each of the 3 images should be from a different genre.

Processes each image using the skills learned this semester.

- Start your edit in ACR
- At least one image in each 4 way must utilize layer masks for selective edits.
- All image must have a different look/style. Explore Profiles and Presets in ACR.
- Write up a detailed technical description for **each** Image.
- Explore - Dive Deep - Have Fun!

Size your images:

2160 pixels long side, 240PPI, 8bit.

Submit

- 12 - .PSD image files through the Canvas
- Submit the written description in the comments section of the submission.

These examples are screen shots from the Bridge. Each image is an individual file.
